APARTMENT VACANCY AND RENTAL COST SURVEY - MAY TO JULY 1984

INTRODUCTION

This Survey was conducted to determine vacancy rates as well as rental costs in 86 municipalities across the Province, excluding Edmonton and Calgary.*

Non-subsidized rental complexes with four or more rental units and store-top rentals were included in this survey. In order to be considered for inclusion in the survey the community must have a population of at least 1,000 and at least 30 rental units. However, some communities which did not meet these criteria were included at the request of government agencies or departments. Camrose, Medicine Hat, Red Deer, Wetaskiwin, Brooks, Crowsnest Pass, Redcliff and Lethbridge were surveyed by Canada Mortgage and Housing Corporation (CMHC) in April. Rather than duplicate effort, CMHC supplied the information on these centres.

From May to July 1984 field researchers from the Market and Economic Analysis Branch of the Alberta Department of Housing interviewed landlords, rental managers, owners and management agencies in the various communities throughout the Province.

Information collected has been arranged into three sections:

SECTION I contains the following five tables:

Table 1 provides an estimate of the number of rental units in each municipality and also the actual number of suites accounted for in the survey. There was 100 per cent response in 65 of the 86 centres surveyed. In the remaining 21 municipalities the response ranged from 60.3 per cent to 99.7 per cent.

Table 2 shows the breakdown of the average rental costs by type of units in the various cities and towns.

* Information for these cities is available from C.M.H.C. from surveys conducted in April and October.

Table 3 gives the vacancies by age of building. In the cities vacancy rates ranged from 3.8 per cent in Fort McMurray to 15.3 per cent in Grande Prairie. In the towns vacancy rates averaged 14 per cent. The vacancy rates were highest in buildings less than six months old at 38.1 per cent and they were lowest in buildings between two and five years at 11 per cent.

Table 4 shows the number and percentage of vacancies by type of building. Among the four conventional rental building types, the walk-up grouping recorded the highest vacancy rate, both in absolute numbers (2,797) and as a percentage (12.6 per cent). The lowest percentage vacancy (8.8 per cent) occurred in the high-rise category. In the towns percentage vacancies for all building types were higher than in the cities, except for high-rise and store top suite groupings.

Table 5 indicates the number and percentage of vacancies by type of suite. As in 1983 the highest percentage vacancy (19.1 per cent) was found in the bachelor suite grouping, whereas the lowest percentage (10.4 per cent) vacancy occurred in the four-bedroom plus category. One, two, and three bedroom units had overall vacancy rates of 13.1 per cent, 11.3 per cent, and 10.8 per cent respectively.

SECTION II provides a historical summary of the percentage vacancy rates in the various centres since 1975.

SECTION III features detailed information on each community that was surveyed. The information includes the number of units surveyed compared to the estimated universe, rental costs by type of suite, and vacancies by age and type of building and by type of suite.

Overall vacancy rates across the Province increased from 11.6 per cent in 1983 to 11.8 per cent this year. As the following table shows the vacancy rates decreased marginally in the cities, (10.3 per cent compared to 10.7 per cent in 1983) and increased to 14.0 per cent (from 12.7 per cent in 1983) in the towns surveyed.

AVERAGE VACANCY RATES

	<u>1982</u>	<u>1983</u>	<u>1984</u>
	<u>%</u>	<u>%</u>	<u>%</u>
Cities	10.1	10.7	10.3
Towns	<u>7.9</u>	<u>12.7</u>	<u>14.0</u>
Overall	9.1	11.6	11.8

The following table shows average 1983 and 1984 rental rates for one and two bedroom apartments (the most common types of suites) and vacancy rates in the eleven cities surveyed. Seven cities recorded decreases in average rents, three recorded increases. Comparable information between 1983 and 1984 is not available for Lethbridge.
